SECTION III: CARE AND MAINTENANCE

NOTE: ALLOW CANOPY TO DRY COMPLETELY BEFORE ROLLING AWNING UP.

Metal surfaces should be cleaned with warm soapy solution and thoroughly rinsed.

2. PERIODIC MAINTENANCE

Like any other part of the RV, an owner should periodically inspect the awning. The following items should be checked.

- A. All mounting screws are tight.
- B. Check all pivot points for enlargements of holes or broken rivets.
- C. Check that the awning rail is tight against coach and all screws are tight.
- D. Check canopy for loose stitching and possible shrinkage.
